PROFESSIONAL SUMMARY

AWS Certified Solutions Architect – Associate with 5+ years of hands-on experience as a System & Network Administrator, managing Linux, Windows, and macOS environments. Skilled in network administration, Sophos Firewall, VLANs, VPN, VMware virtualization, Docker, Kubernetes, and NAS storage. Knowledge of AWS services, including EC2, S3, IAM, VPC, Route 53, Elastic Load Balancing (ELB), Auto Scaling, RDS, CloudWatch, CloudTrail, EBS, and AWS Backup. Experienced in infrastructure management, system troubleshooting, network security, and virtualization, with a strong focus on cloud administration and engineering to build secure, scalable, and highly available IT infrastructure.

TECHNICAL SKILLS

OS & Servers	Linux (AlmaLinux, CentOS, Ubuntu), Windows Server, macOS, Active Directory (User, Group & Group Policies)
Networking	TCP/IP, DNS, DHCP, VLANs, VPN (IPSec/SSL), LAN/WAN, NAT, Routing, L2+ Managed Switches (TP-Link)
Security	Sophos Firewall (rules, IPS, web filter, SSL VPN, NAT), ESET Endpoint, Access Control, Patch Management, ISO 27001 (ISMS Implementation & Compliance)
Virtualization	VMware, VirtualBox, Hyper-V, Docker & Docker Compose, Kubernetes
Cloud (AWS)	EC2, S3, IAM, Direct Connect, Cloud-Watch, VPC, Route 53, EBS, ELB
Storage	TrueNAS & Synology (setup, config, backup), FTP Server
Web & DB	Apache, Nginx, XAMPP, WAMP, MySQL (basic DBA), MongoDB (basic operations)
Scripting	Bash, PowerShell — Backups, Routine tasks
Tools & Other	Nagios, Git, Raspberry Pi server setup, Wake-on-LAN, Port Forwarding
Certifications	AWS Certified Solution Architect-Associate (SAA-C03) CompTIA A+ CompTIA N+ CCNA (training)

PROFESSIONAL EXPERIENCE

System Administrator

April 2021 – Present

WeeTech Solution Pvt. Ltd. | Surat, Gujarat

- Manage and maintain 100+ endpoints across (Linux, Windows, macOS) and virtual environments, ensuring high availability.
- Administer LAN/WAN network infrastructure (TCP/IP, DNS, DHCP) and configure L2+ managed switches with VLANs and trunking across multiple ISPs.
- Implement and maintain Sophos Firewall security policies — rules, IPS, web filtering, and SSL VPN for secure remote access.
- Deploy and manage VMware/VirtualBox VMs: resource allocation, snapshots, performance tuning, and lifecycle management.
- Manage TrueNAS storage: setup, volume configuration, scheduled backups, and recovery testing.
- Managed Active Directory users, groups and group policies.
- Deployed and managed Docker containers using Docker Compose, including multiple database and client containers; created and configured Docker networks to enable secure communication between services.
- Supported, implemented and maintain ISO 27001 requirements, including information security controls, access control, asset management, patch management, backup procedures, security policies, and compliance documentation.
- Automate routine tasks (patching, log rotation, health checks) via Bash and PowerShell scripts
- Configure FTP servers, port forwarding, and Wake-on-LAN for remote system management.
- Deploy Raspberry Pi as lightweight servers including OS setup, network config, and remote SSH access.
- Maintain IT asset inventory (SOP) and oversee hardware/software lifecycle management across the organization.

System Administrator

July 2020 – December 2020

Brainwaves | Surat, Gujarat

- Ensured system component compatibility and configuration across network infrastructure.
- Monitored network security and availability; managed firewall rules and device inventory.
- Performed OS installations, software deployments, and hardware troubleshooting across user workstations.

Network Engineer Trainee

Feb 2020 – May 2020

Tops Technologies Pvt. Ltd. | Surat, Gujarat

- Configured and installed network devices including routers, Cisco-switches, Load-Balancer, firewalls, and VPN appliances.
- Assisted in network maintenance, system upgrades, and security patching to ensure optimal uptime.
- Implemented firewall rules and basic access control policies under senior engineer supervision.
- Supported troubleshooting of connectivity and infrastructure issues across office network.
- Gained exposure to load balancing concepts and network security best practices.

EDUCATION

Bachelor of Computer Applications (BCA)

June 2019

Parul University, Vadodara, Gujarat

HSC (Higher Secondary Certificate)

March 2016

Shri Sardar Patel High School, Kadodara, Gujarat

STRENGTHS

- Strong problem-solving & analytical skills
- Team collaboration & communication
- Troubleshooting & system reliability focus
- Adaptability & quick learning
- Ownership & attention to detail
- Hindi, Gujarati, English
